Profile

I am a **Front-end Developer** with two years of experience, specialized in JavaScript and React for creating engaging user interfaces. Thanks to my continuous learning, I keep my skills updated and easily adapt to new work environments, with a strong team spirit.

Current Position

Front-end Developer at Reddoak Srl

01/2024–Present

- Design and development of responsive user interfaces using front-end technologies such as **React.js**, **Tailwind CSS**, and **Next.js**.
- **Architectural design** and **technology selection** for projects, based on client designs and requirements.
- Close collaboration with backend developers for the design and implementation of **RESTful APIs**, promoting a decoupled front-end architecture.

Front-end Developer at Skillato (Zucchetti Group)

09/2022–01/2024

- Designing and developing responsive user interfaces using front-end technologies such as **HTML5**, **CSS3**, and **JavaScript**.
- Working closely with **UX/UI** designers to translate graphic designs into functional code.
- Utilizing code versioning tools like **Git** to maintain an organized and traceable workflow.
- Contributing to code maintenance by **debugging** and implementing **improvements** to ensure an optimal user experience.

My Education

React: The Complete Guide 2023 (incl. Router & Redux), Udemy

04/2023

Duration: 50 hours

Topics: **React.js**, **React Context**, **Redux**, **React Router** (routing & route-related data fetching), Fullstack projects with **Next.js**, **React Components** and Hooks, Backend API connection
